Vivitek Corporation announces the D825MS & D825MX versatile DLP® Projectors for mobile Professionals

Berlin / Los Angeles, CA, August 29, 2008 – Vivitek Corporation known for high-quality visual display presentation products, introduces the D825MS/MX DLP® projector for mobile professionals, educators, corporate users and small-to-medium sized businesses who demand brilliant performance at a affordable price. The D825MS/MX are native SVGA (800 x 600 pixels) & XGA (1024 x 768 pixels) resolutions that use the latest Digital Light Processing® technology from Texas Instruments that enables to display excellent image and features BrilliantColor™ for exceptional brightness and vibrant colors.

The all-new D825MS/MX is a part of Vivitek's line of DLP® mobile projector that offers the versatility and a cost efficient lamp life of up to 3,000 hours with lightweight design of 2.5kg for convenient mobility. Our mobile DLP® projector enable users to present in a myriad of any lighting conditions, even in rooms with window shades open. Rapid start-up allows presenters to instantly start the presentation and make fast exits after a presentation is over. Also using an instant shutdown feature allows presenters to accommodate tight classroom or business conference room schedules without damage to the projector

"Often times meeting rooms and classrooms are booked back-to-back and presenters need to pick up their materials and hardware and go," said Sam Malik, Vice-President of Sales and Marketing, Vivitek Corporation. "The instant shutdown capability in the D825MS/MX projector helps presenters to finish their task and go off to their next meeting."

Also, D825MS/MX projector uses DLP® technology for exceptional image quality and its advanced filter-free construction makes it resistant to dust, dirt and other particles for maintenance-free operation and image clarity. Having said, "our DLP® mobile projector demonstrates an impressive performance and ultra brightness of 2200 lumens with a 2000:1 contrast ratio that shows extraordinary crisp details even when the lights are on," said Sam Malik, Vice-President of Sales and Marketing, Vivitek Corporation.

But nevertheless, our vertical Digital Keystone allows users to manually adjust the image in the most challenging presentation environments and also, it comes with a built in Kensington security lock to prevent theft or unauthorized removal of the projector. However, school administrators will especially benefit from how the D825MS/MX can be fully integrated into classrooms, or meeting rooms for seamless interaction with white boards or remote control systems via RS-232C communication.

The Manufacturer Suggested Retail Prices for the Vivitek D825MS and D825MX are 499 Euro and 599 Euro respectively and they can be purchased at Vivitek authorised distributors and dealers.

The Vivitek's business Projectors line-up includes full range of entry, middle, and high-end projectors from single chip single lamp 2,000 lumens projectors to dual lamps 5,500 lumens projectors. There are 3-chips E-Cinema Projectors for cinema market and conference room. Vivitek also markets mobile projectors under 1.5kg for mobile use. The light source includes both UHP and LED technology. Vivitek also markets Home Theatre projectors including 720P and 1080P models.
